

Guaranteed safe milk? We've got it under control

Delvotest® for milk control laboratories: the gold standard

We know that guaranteeing safe milk quality, as a national laboratory, isn't easy. So why not let Delvotest® ampoules and plates do it for you? Not only is it the most accurate test on the market today, it delivers internationally validated results with the broadest testing capability available on a large scale. Delvotest® really is the test you can rely on.

BRIGHT SCIENCE. BRIGHTER LIVING.

Delvotest®: for proven, high output residue testing

Milk control laboratories are essential to guarantee no risk in terms of antibiotic residues in milk as they validate milk samples on a large scale. But how can they do this in an accurate and reliable way? Delvotest® boosts your throughput by fast screening of large sample quantities with proven accuracy and reliability. And it's all supported by our world-class technical and application expertise, wherever in the world you are. No wonder Delvotest® is the gold standard for milk testing.

Customers need:

- ✓ **Accurate and reliable** antibiotic residue testing.
- ✓ **A broad testing capability on a large scale** able to detect as many antibiotics as possible.
- ✓ **A fast and (cost) efficient** milk testing process.

What Delvotest® delivers:

- ✓ **Proven accuracy** a trusted solution, reviewed and validated by most national laboratories.
- ✓ **The broadest detection limit in a single test** including the five most common families.
- ✓ **Milk content variations have no impact** on detection limits.
- ✓ **A user-friendly and high output testing solution** that boosts throughput and cost efficiency.
